

REMARKS

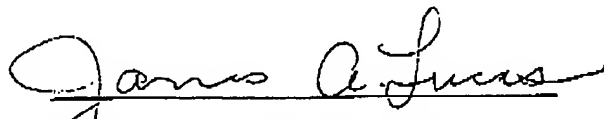

In the August 9, 2005 Office action, Examiner Loke indicated that claims 7-12 are allowable and that claims 14 and 17 were objected to because they depend from a rejected claim. Applicants extend their appreciation for the recognition of the allowable subject matter. In a follow-up telephone interview with the examiner, he indicated that claim 13 would be allowed by amending it to incorporate the word 'pre-wired' from claim 14 into claim 13.

By this amendment, the applicants have canceled all of the non-allowed and previously withdrawn claims. Furthermore, they have amended claim 13 as indicated above.

Applicants respectfully concur with the examiner that the claims now in the application are immediately allowable since all of the remaining non-allowed claims have been canceled from the application to facilitate allowance of the application. These claims are canceled without prejudice to the right of the applicants to recapture the subject matter in one or more subsequent applications. Accordingly, action by the examiner consistent with the indication of allowability is respectfully requested. In the event that any unresolved issues can be handled by phone or e-mail, the examiner is encouraged to do so as promptly as possible by contacting the undersigned.

Respectfully submitted,

Date: AUGUST 22, 2005
